

Seeking The Face of God

Prayer Guide

Week 34

Cost of Seeking: Faith – He Is

And it is impossible to please God without faith. Anyone who wants to come to him must believe that God exists and that he rewards those who sincerely seek him.

Hebrews 11:6 (NLT)

Prayer Focus: Hebrews chapter 11 is the chronicle of the heroes of the faith. Those men and women who spent everything to pursue God in faith. The writer of Hebrews tells us that to please God, we must have a faith that believes two things: God is, and God rewards those who diligently seek Him. The two are eternally linked together because of the very character of God. This is not a simple intellectual assent to theological facts. This is the kind of faith that puts everything on the line in the absolute and total conviction in the nature and character of God. It is the kind of faith that has settled the question of God's existence and character and forces every part of life, and experience to be conformed to the truths of who God is. Therefore, every area of life is brought into alignment to this faith. Every experience is seen in light of God and who He is. This faith allows for no exceptions because God and His character are the only truth that is eternal. Experiences, emotions, circumstances all are transitory. Therefore the transitory must be subject to the eternal. To seek the Face of God means that everything transitory, everything temporary is made to serve the goal of seeking Him who alone is eternal, who alone is truth, and who will reward those who diligently seek Him. Are you one of those?
